

## New-gen DDR5

Unprecedented Performance & Stability

# DDR5 Memory Module | P5 Value Series

The P-Series DDR5 Value DRAM is designed for users who demand reliable performance and efficiency without compromise. Built for next-generation computing, this DDR5 5600MHz memory module enhances multitasking capabilities, ensuring smooth and responsive performance for everyday tasks, gaming, and professional workloads, with support for both Intel and AMD platforms.

Module Type	DDR5 UDIMM 288 Pin
Speed (MT/s)	5600
Compatible Platform	Intel 12th Gen and newer AMD Ryzen 7000, 9000 Series
Latency	CL46
Voltages	1.1V
Module Capacities	16GB, 32GB
Package	Single and Dual Cannel Kits
On-die ECC	Yes
Dimensions	133.7 x 41 mm
Warranty	Limited Lifetime
